PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with a strong foundation in both frontend and backend technologies, including React, Node.js, Python, Flask, and .NET. Adept at building scalable, user-centric web applications with clean architectures and modern UI/UX practices. Proven ability to integrate AI capabilities into software solutions, leveraging machine learning models, NLP, and automation to solve real-world problems. Passionate about continuous learning, cross-functional collaboration, and delivering high-impact digital experiences with performance, security, and maintainability in mind.

EDUCATION

Bachelor of Software Engineering (Honors)
The Open University of Sri Lanka | *2nd Year (Reading)*

Bachelor of Information Technology
University of Colombo School of Computing | *Final Year (Reading)*

Comprehensive Master Java Developer (CMJD)
Institute of Software Engineering (IJSE) | *Completed*

TECHNICAL SKILLS

- Programming Languages & Frameworks
- Java (Core, Swing, FX, Multi-threading, Collections)
- Python (Currently Learning – Backend Development, Scripting)
- JavaScript (ES5, React, Node.js)
- HTML5, CSS3, Bootstrap, Tailwind, JavaFX, JFoenix
- Spring Boot (Backend, REST APIs, Web Services, Security)
- Hibernate ORM
- React (Frontend Development)

Database Management & Tools

- **MySQL**, **JDBC** (Database Integration)
- **Database Management Systems (DBMS)**
- **Git**, **GitHub** (Version Control)

Development Practices & Tools

- **Development Tools:** IntelliJ IDEA, NetBeans, VS Code
- **Design Patterns:** Singleton, Factory, DTO, DAO
- **Software Development:** Agile methodology, Object-Oriented Programming (OOP), MVC Architecture
- **Web Application Deployment:** Cloud deployment and hosting, Responsive web design

PROJECTS

- **Fitness Tracker**
  - Developed a web app to monitor workouts, calories, and progress, with dynamic charts and user authentication.
- **Syntax Education**
  - Built an e-learning platform for coding tutorials and quizzes, supporting user progress tracking and admin controls.
- **Sri Lanka Railway Timetable**
  - Created a timetable viewer with real-time train schedules and filtering by routes, stations, and train types.
- **Online Exam Portal**
  - Designed a secure exam system with timed tests, auto-evaluation, and role-based access for students and admins.
- **Polling System**
  - Implemented an online voting platform with real-time result charts and one-vote-per-user/IP validation.
- **A Login Page**
  - Crafted a secure and responsive login interface with input validation, session handling, and error feedback.

- **Green Leaf Hospital**
  - Built a hospital management system with modules for doctor scheduling, patient registration, and appointment booking.

- **Portfolio Website**
  - Developed a modern, animated portfolio using React and Tailwind, showcasing projects, skills, and contact features.

- **Expense Tracker**
  - Created a responsive tracker with local Storage support, category-wise filtering, and data visualization with Chart.js.

- **Doctor Roster Generator**
  - Engineered a dynamic scheduling tool for hospital departments, skipping weekends/holidays via calendar integration.

- **File Organizer**
  - Built a desktop tool to organize files by type/date with undo/redo support, drag-and-drop, and summary statistics.

- **Travel Booking App**
  - Designed a full-featured booking app with location-based search, booking history, and dynamic pricing logic.

- **Library Management System**
  - Developed a system to manage books, members, and issue/return operations with overdue tracking.

- **Super Market Management System I**
  - Created a POS system managing products, billing, and stock, with a clean GUI and sales reporting.

- **Super Market Management System II**
  - Enhanced version of the POS system with barcode scanning, discount rules, and user role management.

- **Employee Management System**
  - Built a CRUD-based system to manage employee records, roles, and payroll information.

- **Students Marks Management System**
  - Developed a system to record, compute, and visualize student marks with export and filtering features.

PROFESSIONAL EXPERIENCE

ICT Teacher

Zahira College, Colombo | *Current*

- Currently teaching G.C.E. Advanced Level ICT in English medium, focusing on both theory and practical application.
- Plan and deliver structured lessons aligned with the national curriculum, incorporating modern tools and real-world examples to enhance student understanding.
- Conduct classes in state-of-the-art smart classrooms equipped with smart boards, enhancing engagement through interactive and technology-driven teaching.
- Engage students in interactive classroom and lab sessions to build foundational and advanced ICT skills.

IT & Mathematics Tutor

Self-Employed | *Current*

- Conduct G.C.E. O/L and A/L ICT classes in English, Sinhala, and Tamil, tailoring teaching methods to suit diverse learner profiles.
- Tutor undergraduate students in IT and Mathematics modules, simplifying complex concepts with structured lessons and personalized guidance.
- Teach programming, web development, and core IT concepts through practical examples, custom lesson plans, and targeted assessments.
- Mentor students in individual and group settings (both in-person and online), focusing on academic excellence and real-world skills.

Web Developer Intern

Envicta Software | *Feb2024 – Aug 2024*

- Designed user-friendly and visually appealing WordPress interfaces, ensuring responsive design and cross-browser compatibility.
- Developed and customized WordPress themes/plugins, adhering to high standards of code quality and UX.
- Optimized website performance, conducted troubleshooting, and collaborated with the development team to deliver projects on time.
- Demonstrated reliability and creativity in solving technical challenges, contributing to team success.
